

ADMIRALTY BUOY

MOORING BUOY

- NJ Maritech Admiralty Pattern Mooring Buoy is Fabricated from 8mm steel plate and constructed with watertight compartments (2 for 5th and 6th Class and 4 for the remainder) each with a Manway and drain plug.
- Admiralty Pattern Mooring Buoys are finished with rubber or timber Fendering and life chains.
- The central open hawse pipe, with reinforced collars at each end, allows for a large diameter riser chain to be lead through the buoy, ensuring all loads are transmitted directly to the mooring itself and not to the buoy.

CONSTRUCTION

SPECIFICATION

CLASSIFICATION	DIAMETER	LENGTH	HAWSE PIPE DIAMETER	RESERVE BUOYANCY (Kg.)	APPROX. MASS (Kg.)
6 TH CLASS	1140	1830	215	625	925
5 TH CLASS	1220	2130	215	1500	1000
4 TH CLASS	1680	2900	305	4250	1940
3 RD CLASS	1980	3510	355	6500	4290
2 ND CLASS	2290	4010	460	11500	4960
1 ST CLASS	2440	4470	460	15000	5890
